INQUIRY INFORMATION

Date: _____

Name: _____

Dept: _____

Institute/Company: _____

Tel: _____

Email: _____

Please indicate below sample type which you are interested in

In Gel sample Cell sample* Tear Growth medium Plasma

Serum Other body fluid, please specify: _____

Tissue, please specify: _____

Other: _____

If sample is in-solution, please specify: _____

solvent/buffer: _____

protein concentration ($\mu\text{g}/\mu\text{l}$) (if known): _____

Type of analysis you are interested in

Protein Identification Relative Protein Quantitation Biomarker Discovery study**

Absolute Quantitation of specific protein

Discovery study + absolute quantitation of significant findings

Small molecule (<2000 Da)

MRM (absolute quantitation on known protein or molecule)

I don't know at this point what is the best approach

Total number of samples: _____

Number of groups/time points/ etc: _____

samples/group: _____

Species: Human Rat Mouse Other: _____

Study aim: _____

*In case of cell sample are you interested in

Overall cell proteomics Cell membrane proteins Exosome

Other: _____

****Biomarker discovery study means:** Method development, Sample preparation, Building of quantification library for specific sample type, Relative quantification of proteins, Bioinformatics to find the differentiating proteins between groups, Data quality management.
